The first edition of the International Maritime Informatics & Big Data Summer School will provide a number of introductory lectures covering the main topics related to maritime informatics. It shall host a diverse multinational group of up to 50 students and a lineup of internationally recognised speakers, during an eight-day programme that will allow participants to gain a deeper knowledge and understanding of maritime informatics. Complementary to the lectures, a number of experiments and demonstrations will take place at sea using state-of-the-art maritime robotic systems.

The goal is to provide a unique multidisciplinary week of learning and doing maritime informatics. Find out more at https://summer-schools.aegean.gr/MaritimeInformatics2020 or contact us at MaritimeInformatics2020@aegean.gr.

Registration – Fees: €500 for registrations until Apr. 1, 2020 / €400 for students of the University of the Aegean, IEEE members, Fusion Society / 550 after Apr. 1, 2020
