

Anne-Laure Jousselme is with the NATO Centre for Maritime Research and Experimentation (CMRE) in La Spezia (Italy) since June 2014 (previously with the Defence Research and Development Canada (DRDC) in Valcartier in the Command, Control and Intelligence section). She is member of the boards of directors of the International Society of Information Fusion (ISIF) and of the Belief Functions and Applications Society (BFAS). She has served on program and organization committees of international conferences such as Fusion, Belief, CogSima. She has been adjunct professor at Laval University (Quebec, Canada) during 10 years. Her current research interests are high-level information fusion, reasoning under uncertainty, target recognition and identification, information quality assessment and maritime anomaly detection.
