

# Journal of Advances in Information Fusion

A semi-annual archival publication of the International Society of Information Fusion

Regular Papers	Page
<b>Standard Bayesian Approach to Quantized Measurements and Imprecise Likelihoods</b> ..... 3 <i>Lawrence D. Stone, Metron Inc., USA</i> <i>Stephen L. Anderson, Metron Inc., USA</i>	3
<b>Symmetries in Bayesian Extended Object Tracking</b> ..... 13 <i>Florian Faion, Karlsruhe Institute of Technology (KIT), Germany</i> <i>Antonio Zea, Karlsruhe Institute of Technology (KIT), Germany</i> <i>Marcus Baum, University of Connecticut (UCONN), USA</i> <i>Uwe D. Hanebeck, Karlsruhe Institute of Technology (KIT), Germany</i>	13
<b>Simulating Aerial Targets in 3D Accounting for the Earth's Curvature</b> ..... 31 <i>David Frederic Crouse, Naval Research Laboratory, USA</i>	31
<b>Road Network Identification by means of the Hough Transform with Uncertainty Analysis</b> ..... 58 <i>Eric Salerno, University of Buffalo, USA</i> <i>Nagavenkat Adurthi, University of Buffalo, USA</i> <i>Tarunraj Singh, University of Buffalo, USA</i> <i>Puneet Singla, University of Buffalo, USA</i> <i>Adnan Bubalo, Air Force Research Laboratory (AFRL) Information Directorate, USA</i> <i>Maria Cornacchia, Air Force Research Laboratory (AFRL) Information Directorate, USA</i> <i>Mark Alford, Air Force Research Laboratory (AFRL) Information Directorate, USA</i> <i>Eric Jones, Air Force Research Laboratory (AFRL) Information Directorate, USA</i>	58
<b>Efficient GPU-Accelerated Implementation of Particle and Particle Flow Filters for Target Tracking</b> ..... 73 <i>Vesselin P. Jilkov, University of New Orleans, USA</i> <i>Jiande Wu, University of New Orleans, USA</i>	73
<b>Volumes 1–9 Index</b> ..... 89	89
