

Journal of Advances in Information Fusion

A semi-annual archival publication of the International Society of Information Fusion

Regular Papers	Page
Bias Estimation for Moving Optical Sensor Measurements with Targets of Opportunity	101
<i>Djedjiga Belfadel, University of Connecticut, USA</i>	
<i>Richard W. Osborne, III, University of Connecticut, USA</i>	
<i>Yaakov Bar-Shalom, University of Connecticut, USA</i>	
Fusion of Multipath Data with ML-PMHT for Very Low SNR Track Detection in an OTHR	113
<i>Kevin Romeo, University of Connecticut, USA</i>	
<i>Yaakov Bar-Shalom, University of Connecticut, USA</i>	
<i>Peter Willett, University of Connecticut, USA</i>	
Tracking Targets with Multiple Measurements per Scan Using the Generalized PHD Filter	125
<i>Christoph Degen, Fraunhofer FKIE, Germany</i>	
<i>Felix Govaers, Fraunhofer FKIE, Germany</i>	
<i>Wolfgang Koch, Fraunhofer FKIE, Germany</i>	
An improved measurement model for target tracking under measurement origin uncertainty	143
<i>Viji Paul Panakkal, BEL, India</i>	
<i>Rajbabu Velmurugan, Indian Institute of Technology Bombay, India</i>	
Bistatic Measurement Fusion from Multistatic Configurations for Air Collision Warning	163
<i>Wenbo Dou, University of Connecticut, USA</i>	
<i>Yaakov Bar-Shalom, University of Connecticut, USA</i>	
<i>Peter Willett, University of Connecticut, USA</i>	
Early Fusion and Query Modification in Their Dual Late Fusion Forms	183
<i>Leszek Kaliciak, AmbieSense Ltd., UK</i>	
<i>Hans Myrhaug, AmbieSense Ltd., UK</i>	
<i>Ayse Goker, AmbieSense Ltd., UK</i>	
<i>Dawei Song, Open University in Milton Keynes, UK</i>	
Fusion of Asynchronous Passive Measurements	199
<i>Richard W. Osborne, III, University of Connecticut, USA</i>	
<i>Yaakov Bar-Shalom, University of Connecticut, USA</i>	
<i>Peter Willett, University of Connecticut, USA</i>
