

Journal of Advances in Information Fusion

A semi-annual archival publication of the International Society of Information Fusion

Regular Papers	Page
Extended Object Tracking: Introduction, Overview, and Applications 139 <i>Karl Granström, Chalmers University of Technology, Sweden</i> <i>Marcus Baum, University of Goettingen, Germany</i> <i>Stephan Reuter, Ulm University, Germany</i>	139
Multi Detection Joint Integrated Probabilistic Data Association Using Random Matrices with Applications to Radar-Based Multi Object Tracking 175 <i>Michael Schuster, Konstanz University of Applied Sciences, Germany</i> <i>Johannes Reuter, Konstanz University of Applied Sciences, Germany</i> <i>Gerd Wanielik, Chemnitz University of Technology, Germany</i>	175
Converted Measurements Bayesian Extended Target Tracking Applied to X-band Marine Radar Data 189 <i>Gemine Vivone, Atlantic Treaty Organization (NATO) Science and Technology Organization (STO), Italy</i> <i>Paolo Braca, Atlantic Treaty Organization (NATO) Science and Technology Organization (STO), Italy</i> <i>Karl Granström, Chalmers University of Technology, Sweden</i> <i>Antonio Natale, IREA-CNR, Italy</i> <i>Jocelyn Chanussot, University of Iceland, Iceland</i>	189
Priority-Based Tracking of Extended Objects 211 <i>Kevin Wyffels, Cornell University, USA</i> <i>Mark Campbell, Cornell University, USA</i>	211
Extended Object Tracking with Exploitation of Range Rate Measurements 228 <i>Steven Bordonaro, Naval Undersea Warfare Center, USA</i> <i>Peter Willett, University of Connecticut, USA</i> <i>Yaakov Bar-Shalom, University of Connecticut, USA</i> <i>Marcus Baum, University of Connecticut, USA</i> <i>Tod Luginbuhl, Naval Undersea Warfare Center, USA</i>	228

*From the
Editor-In-Chief*

*Guest Editorial:
Foreword to the
Special Issue on
Extended Object
Tracking*
