

Journal of Advances in Information Fusion

A semi-annual archival publication of the International Society of Information Fusion

The Journal of Advances in Information Fusion (JAIF) is the flagship journal of the International Society of Information Fusion (ISIF). JAIF is an open-access, peer-reviewed, semi-annual, archival journal published electronically and distributed via the internet. JAIF was founded in July 2006 and includes two issues each year. The journal is indexed at SCOPUS, free for authors, and freely available for readers at

<http://www.isif.org/journal>

Authors are invited to submit both regular papers as well as short correspondences describing advances, applications, and new ideas in information fusion, both theory and application.

Authors of papers presented at our annual International Conference on Information Fusion are strongly encouraged to consider submitting their papers to JAIF.

At the time of submission to JAIF, any previous publication (or submission) that includes more than 25% of the material in the paper must be declared by the authors. Manuscripts are submitted at

<http://jaif.msubmit.net>

Editor-in-chief:	Stefano Coraluppi (Systems & Technology Research, USA)
Associate Editor-in-chief:	David Crouse (Naval Research Laboratory, USA)
Administrative Editor:	David Krout (University of Washington, USA)
